AgCall Human Resources

Website: www.agcallhr.com

AgCall Human Resources is dedicated to bringing together employers and job seekers—exclusively in the agriculture, food and biotechnology industry—across Canada. We provide our industry-leading clients with executive search and recruiting services for full-time, permanent positions, in all sectors of the agribusiness industry, and at all levels of job function.

Because we recruit nationwide for all sectors of the agribusiness industry, and for jobs at all levels, opportunities for candidates are numerous and constantly changing. Our industry is the largest employer in the country! Opportunities exist in research and development, sales, marketing, finance, management and more!

Job seekers who register with us—by submitting their resume to our confidential Talent Database and by helping us understand what they’re seeking in their next job—are a part of our overall selection process for current and future recruiting projects. We make connections happen! We accept resumes at all times. And best of all, there’s NO FEE for job seekers!

Visit www.agcallhr.com to view all current opportunities and to submit an application to our confidential and secure Talent Database.

We’ll be accepting resumes at the Job Fair!

Our targeted AgCall HR JobAd job board is the agrifood industry job portal where employers and candidates meet. Employers, posting a job ad is easy and economical, and has guaranteed results!

**Majors recruited:** Agricultural Economics BSc (AgEnvSc), Agro-Environmental Sciences BSc (AgEnvSc), Farm Management Technology

**Positions offered:** Full-Time, Internship
For more than a century, the people of Archer Daniels Midland Company (NYSE: ADM) have transformed crops into products that serve the vital needs of a growing world. Today, we’re one of the world’s largest agricultural processors and food ingredient providers, with more than 32,000 employees serving customers in more than 160 countries. With a global value chain that includes 428 crop procurement locations, 250 ingredient manufacturing facilities, 38 innovation centers and the world’s premier crop transportation network, we connect the harvest to the home, making products for food, animal feed, industrial and energy uses.

Degree levels recruited: Collegial (Farm Management Technology-FMT), Undergraduate (Bachelor), Graduate (Masters/Doctorate)

Majors recruited: Agricultural Economics BSc (AgEnvSc), Agro-Environmental Sciences BSc (AgEnvSc), Agrology (Professional) BSc (AgEnvSc), Bioresource Engineering BEng, Dietetics (Professional) BSc (Nutr), Environment BSc (AgEnvSc), Environmental Biology BSc (AgEnvSc), Biotechnology, Farm Management Technology, Food and Bioprocessing, Food Safety, Food Science BSc (FSc), Global Food Security BSc (AgEnvSc), Integrated Water Resources Management Graduate, Life Sciences BSc (AgEnvSc), Nutritional Sciences BSc (NutrSc), Parasitology

Positions offered: Full-Time, Part-Time, Internship, Summer
By joining our agribusiness financing team, you will have the opportunity to support large agricultural businesses with all their financing projects.

Through your entrepreneurial spirit, motivation and commercial credit expertise, you can help your portfolio of assigned clients grow and thrive. With a team of more than 90 agriculture specialists known for the quality of their advisory services, National Bank offers a work environment where diversity and cooperation are valued each and every day. We offer an ongoing development program and competitive total compensation (benefits, pension plan, variable compensation and performance-related incentive programs, etc.).

This position is located in Winnipeg

Main challenges
- Identify and develop business opportunities in your market, build up your clientele, and establish business development strategies;
- Maintain regular contact with your clients and ensure their loyalty by initiating proposals that go beyond their needs;
- Negotiate terms and conditions for agreements with agribusiness clients, making sure that they meet risk management standards and profitability criteria;
- Obtain business objectives fixed by the business line;
- Develop the portfolio assigned to you and increasing its profitability by providing your clients with the advice they need using your knowledge and high-level professional experience;
- Ensure maximum visibility for yourself and the Bank with associations and private and governmental organizations, and participate actively in activities attended by decision-makers in your region’s financial and agricultural sectors.

Degree levels recruited: Undergraduate (Bachelor), Graduate (Masters/Doctorate)

Majors recruited: Agricultural Economics BSc (AgEnvSc), Agro-Environmental Sciences BSc (AgEnvSc), Agrology (Professional) BSc (AgEnvSc), Bioresource Engineering BEng, Dietetics (Professional) BSc (Nutr), Environment BSc
Bonduelle

Website: www.bonduelle.com

Bien implantée en Amériques avec plus de 3000 collaborateurs, Bonduelle exploite plusieurs sites de production dont 8 au Canada, 4 aux États-Unis et un au Brésil. Bonduelle y transforme des légumes surgelés et en conserve ainsi qu’une gamme de sauces, fèves au lard, légumineuses et soupes en conserve. En plus de produire pour les grandes marques de distributeurs, la filiale américaine commercialise également des légumes sous ses propres marques dont les marques Arctic Gardens et Graves au Canada et la marque Bonduelle au Canada, aux États-Unis, Argentine et au Brésil.

Degree levels recruited: Collegial (Farm Management Technology-FMT), Undergraduate (Bachelor), Graduate (Masters/Doctorate)

Majors recruited: Agro-Environmental Sciences BSc (AgEnvSc), Food and Bioprocessing, Food Science BSc (FSc)

Positions offered: Full-Time, Part-Time, Internship, Summer
Safeguarding with Science

Who we are:

At the Canadian Food Inspection Agency (CFIA), the safety of Canada's food supply is central to everything we do. That’s why the CFIA works from the farm gate to the consumer’s plate to protect public health. We safeguard not just the food supply, but also the plants and animals upon which safe and high-quality food depends.

In carrying out its mandate, and in support of Government of Canada priorities, the CFIA strives to:
• protect Canadians from preventable health risks
• protect consumers through a fair and effective food, animal and plant regulatory regime that supports competitive domestic and international markets
• sustain the plant and animal resource base
• contribute to the security of Canada’s food supply and agricultural resource base, and
• provide sound agency management

**Degree levels recruited:** Collegial (Farm Management Technology-FMT), Undergraduate (Bachelor), Graduate (Masters/Doctorate)

**Majors recruited:** Agricultural Economics BSc (AgEnvSc), Agro-Environmental Sciences BSc (AgEnvSc), Agrology (Professional) BSc (AgEnvSc), Dietetics (Professional) BSc (Nutr), Environment BSc (AgEnvSc), Environmental Biology BSc (AgEnvSc), Farm Management Technology, Food and Bioprocessing, Food Safety, Food Science BSc (FSc), Nutritional Sciences BSc (NutrSc)

**Positions offered:** Full-Time, Part-Time, Internship, Summer
Cargill Limited

Degree levels recruited: Collegial (Farm Management Technology-FMT),
Monsanto Canada Inc.

Website: www.monsanto.ca

Monsanto Canada, an important supplier of seed, crop protection products and a leader in the field of biotechnology is looking for summer research assistants. Reporting to the local Technology Development Representative, you will be assisting in planting, spraying, maintaining, evaluating, and harvesting small plot agronomy, chemistry, and trait development research trials. You’ll gain valuable experience through paid, full-time positions and it will be a great way to get the inside track on how an industry leader like Monsanto works. The terms will start in April or May and run for 4 or 8 months. Two research programs working primarily on corn and soybeans are conducted in the area of Valleyfield and St-Hyacinthe covering Eastern Ontario and Quebec Province.

The majority of work will be outdoors, working either independently or with other members of the commercial team. Previous farm experience and mechanical ability would be considered an asset, but are not required. A valid driver’s license is mandatory.

Degree levels recruited: Collegial (Farm Management Technology-FMT), Undergraduate (Bachelor)

Majors recruited: Agro-Environmental Sciences BSc (AgEnvSc), Agrology (Professional) BSc (AgEnvSc), Farm Management Technology

Positions offered: Full-time, Summer

The Quebec-Labrador Foundation

QLF exists to promote global leadership development, to support the rural communities and environment of eastern Canada and New England, and to create models for stewardship of natural resources and cultural heritage that can be shared worldwide.
QLF seeks to empower communities and engage a global network of leaders to address shared community and conservation challenges worldwide.

Within the Atlantic region, QLF programs engage the next generation of environmental leaders in projects that focus on community-based conservation, protecting biodiversity, and promoting local cultural heritage.

Internationally, QLF encourages cross-cultural and cross-border cooperation and knowledge-sharing among conservation and stewardship leaders. Through QLF’s Global Leadership Network, ideas, best practices, research, tools, and success stories are exchanged between participants from QLF’s home region and the places we work around the world.
