<p>Agrocentre Fertibec</p>	<p>http://www.agrocentre.qc.ca</p>	<p>Agrocentre est un réseau de détaillants se spécialisant dans la vente d'intrants agricoles et plus spécifiquement dans les productions végétales. Les conseiller(ère)s travaillant pour Agrocentre sont spécialisés dans diverses productions selon les différentes régions agricoles. De là découle l'expertise « tout terrain ».</p> <p>L'équipe Agrocentre possède des connaissances agronomiques très diversifiées. Les productions maraîchères, les grandes cultures, les pommes de terre, les petits fruits, etc. sont des domaines que nous maîtrisons très bien et pour lesquels nous ne cessons de nous perfectionner.</p> <p>Agrocentre n'est pas uniquement un réseau de détaillants axés sur la vente d'intrants. Il s'agit d'abord et avant tout d'une entreprise dédiée aux services agronomiques. La volonté d'offrir un travail professionnel à notre clientèle se reflète dans la qualité des conseils prodigués et notre rapidité d'action. Les conseiller(ère)s d'Agrocentre travaillent tous dans l'optique des résultats escomptés et visent la pérennité des entreprises des producteurs agricoles nous confiant leur suivi agronomique.</p> <p>L'équipe Agrocentre compte environ une centaine d'employés permanents, dont une cinquantaine de conseiller(ère)s qui se partagent l'ensemble du territoire. Parmi les membres de l'équipe, agronomes et techniciens agricoles travaillent en étroite collaboration dans le but de mieux servir les agriculteurs de leur région respective. Ensemble, nous échangeons nos connaissances afin que notre équipe Agrocentre soit la meilleure sur le terrain.</p> <p>Notre réputation est basée sur de solides formations agricoles, un sens aigu du perfectionnement de chacun et une formation continue adéquate. La formation continue est au cœur de nos préoccupations afin de bien maîtriser les nouvelles technologies, les nouveaux produits et d'accroître notre savoir-faire individuel et collectif.</p>	<p>Collegial (Farm Management Technology), Undergraduate</p>	<p>Farm Management & Technology (College Diploma), Plant Science, Agricultural Sciences, Agricultural Economics, Botanical Science</p>

<p>Belisle Solution Nutrition</p>	<p>http://www.belisle.net</p>	<p>Belisle Solution Nutrition has been an animal feed manufacturer since 1956. Employees have owned the company for the past 15 years and we are extremely proud of being one of the last Canadian-owned companies in the feed industry today. We are known as a very innovative company, ready to bring to farms the latest in feed additives and technologies. Belisle has a computerized and automated system that allows us to trace every single product being manufactured in our plant, being just the second company in our industry in Canada to have implemented such a process.</p> <p>One of our strengths is that we work very closely with farmers to help them improve their efficiency in order to increase their profit margins. We have always emphasized the importance of good forages in improving animal performance. Today, our involvement with the dairy farm is a full-spectrum operation from the production of forages in the field right through to our commitment to the well-being of all the animals on the farm. We support farmers with their species selection, seeding techniques, soil preparation and in choosing the most appropriate harvesting method for their farm.</p> <p>Belisle provides feeding programs that first and foremost make use of the feed grown on the farm. Then, we complement the ration with appropriate feed commodities and/or additives that will optimize rumen function. We also provide a heifer rearing program to optimize growth rate and rumen development based on high quality forages.</p> <p>Animal welfare is also very important to us. We know happy and healthy animals will always perform better. And finally, we believe it is an important part of our mandate to ensure that consumers get to know what Belisle does to improve the life and well-being of all of the animals entrusted to our care.</p>	<p>Collegial (Farm Management Technology), Undergraduate</p>	<p>Plant Science, Animal Biology/Science, Agricultural Sciences</p>
<p>Bonduelle North America / Bonduelle Amérique du Nord</p>	<p>http://www.bonduelle.ca</p>	<p>Bonduelle North America is Canada's leading processor of canned and frozen vegetables. Its expertise, along with that of its highest caliber agricultural partners in the most fertile croplands in North America, guarantee products of superior quality that meet the very highest customer standards.</p> <p>Acclaimed for the excellence of its service, the company has a long-standing tradition of know-how and expertise. Its plants, equipped with modern technology, enable superior flexibility and production capacity. Its team of seasoned experts ensures thorough control over every step in the food processing chain, from seeding to packaging.</p> <p>Though mainly engaged in vegetable processing, Bonduelle also produces and packages a wide range of food products including frozen fruit, canned soups, sauces, baked beans and dry beans, according to the same standards of quality.</p> <p>The company's products are marketed under the private-brand labels of the major North American food distributors and supermarket chains, as well as under Bonduelle own labels, which include Arctic Gardens frozen fruits and vegetables, a popular Canadian brand. Its sales team operates on the major retail trade and food services networks.</p> <p>Bonduelle North America has seven plants in Canada, including three in Ontario's famed Horseshoe Valley and four in the fertile St. Lawrence River Valley in Quebec.</p> <p>If you are interested in applying for a position at Bonduelle North America please send us your resume at: ressources.humaines@bonduelle.ca</p>	<p>Collegial (Farm Management Technology), Undergraduate</p>	<p>Dietetics, Food Science, Agricultural Sciences, Environment</p>

Cargill Limited	http://www.ichoosecargill.com	<p>Cargill is an international producer and marketer of food, agricultural, financial and industrial products and services. Centre d'insémination artificielle du Québec (CIAQ)	http://www.ciaq.com	<p>Located in Saint-Hyacinthe, the Centre d'insémination artificielle du Québec, or CIAQ, was created in 1948. CIAQ is the only production centre of bovine semen in Québec. With a team of 320 dedicated people, CIAQ works at improving the genetics of dairy and beef cattle.</p> <p>CIAQ is owned by three groups of Québec producers, the Fédération des producteurs de lait du Québec, or FPLQ (milk producers), the Conseil québécois des races laitières inc., or CQRL, (breed associations) and the Conseil provincial des cercles d'amélioration du bétail inc., or CPCAB (breeding clubs).</p> <p>CIAQ can offer breeders an outstanding line of sires recognized as leaders on the national and international scenes both in dairy breeds, such as the Ayrshire, Brown Swiss, Canadienne, Holstein and the Jersey, and in beef breeds.</p> <p>CIAQ accounts for 45% of the artificial insemination (A.I.) market in Canada. Approximately 800,000 doses of semen from our sires are used each year by Québec breeders. CIAQ has two distribution channels: the A.I. technician network and our on-farm sales service team. CIAQ also has an agreement with the Nova Scotia Animal Breeders Co-op Ltd. whereby Nova Scotia breeders can use semen from our sires as well as our services.</p> <p>The Semex Alliance, which markets our products throughout the world, is owned by three Canadian A.I. centres: Westgen, Eastgen and CIAQ, which is a 45% shareholder.</p> <p>CIAQ is the only bovine semen production centre in Québec and it is owned by Québec breeders.</p>	Collegial (Farm Management Technology), Undergraduate	Farm Management & Technology (College Diploma), Animal Biology/Science

Olier Grisé & Cie Ltée	http://www.oliergrise.com	Olier Grisé & cie Ltée est une entreprise familiale, fondée en 1917 , et qui est spécialisée en alimentation animale. La compagnie est la propriété de la troisième génération de la famille Grisé. Bien implantée au coeur de la région agricole et à proximité de la technopole agroalimentaire de St-Hyacinthe, la compagnie est présente dans la majorité des régions du Québec et dans l'est ontarien. La mission de l'entreprise est de travailler avec les producteurs afin de comprendre leurs problèmes, leurs préoccupations, leurs priorités, afin de leur apporter des solutions concrètes qui rencontrent leurs objectifs professionnels. Pour ce faire, nous offrons des services professionnels de suivi de troupeaux allant des analyses des intrants à l'établissement des programmes alimentaires , services qui nous permettent de recommander et de formuler un produit sur mesure, adapté au troupeau et à son stade de production. Mais avant toute chose, pour accomplir cette mission, nous croyons que nous devons bâtir et cultiver une relation privilégiée avec ces partenaires que sont nos clients. Pour développer cet échange la compagnie peut compter sur une équipe multidisciplinaire comprenant agronomes, techniciens, personnel administratif en plus du personnel affecté à la fabrication et à la livraison. Olier Grisé a obtenu la certification HACCP en 2001 et a une attestation de fournisseur d'intrants pour l'agriculture biologique d'Écocert Canada. Nous sommes à la recherche de gens compétents et passionnés afin de poursuivre notre mission auprès des producteurs agricoles.
